Historic/Other Name:

PHYSICAL DESCRIPTION:

A fine Federal Colonial house in excellent condition, this house consists of a core with wings and a porch attached later. The core, built c. 1790, is a two and a half story, three bay, end gable house with interior end chimneys. It has a wooden shingle roof and stuccoed walls. Windows on the third floor are three paned awnings without shutters; on the first and second floors the windows are six over six double hung sash with shutters. The door is in the first bay rather than the center bay; otherwise the core is a symmetrical unit. The main wings are two story, two bay and are built on the same axis as the core. They have a similar window pattern on the façade and have four windows on the gable ends. There is also a circular window in the gable. There is also a rear addition. A long porch runs the length of the core and one addition; one end of the porch has been enclosed with glass to form a greenhouse.

Classification: While this house is in excellent condition, the many alterations make it a Class II resource.
