Historic/Other Name:

PHYSICAL DESCRIPTION:

This property consists of a heavily altered house (converted to an office building) and a barn. The ell-shaped building has two main sections and a modern, "faux" Mansard or Second Empire-style roof. The roof consists of asphalt shingles; the walls are stucco. The building has three stories with single shed roofed dormers on the older section and dual shed roofed dormers in the newer section. A single brick chimney is located on the northern end of the original section. Fenestration consists of modern 1x1 sash windows with fake shutters. One remaining historic feature is a 2-story bay window facing the void of the ell. The framed feature is clad in scalloped shaped shingles and is capped with a flat roof supported by decorative brackets. The building measures approximately 50' x 50'.

Associated Building: (Barn) As barn, located at the rear of the house, consists of a two story, frame structure clad in board and batten. The end gabled roof is clad in asphalt shingles. A large, open, shed roof addition extends over the front or south facade of the building. The south facade also has two garage entrances. The core measures 35' x 20'; and 35' x 30' with the shed addition.

Classification: The heavily altered building is Class II.
