PHYSICAL DESCRIPTION:

This Federal style house consists of a 2.5 story, three bay wide core and numerous additions on the rear. The core is similar to 956 DeKalb. It consists of stucco over stone walls, a center entrance with transom and sidelights, an end gabled, asphalt shingle roof, and full length pent roof on the main facade. Two plain, brick, flush chimneys are located at the ends of the house. Fenestration includes 4x4 sash windows on the first and second levels, and 3x3 sash windows occupying the frieze band. The core measures 30'x20'.

The addition attached to the core is a two-story arrangement creating an overall cross-axial roof, and an ell-shape to the overall structure. It features a second story Victorian era porch running along the eastern side. Attached to the rear of the addition is a garage that opens to the east. Attached to the south side of that garage addition is another garage, also facing east.

The property is in excellent condition.

Classification: The resource has no significant features and is Class II.
